PROFILE

Passionate about both functionality and aesthetics, I am a third-year Informatics Engineering student at Tadulako University focused on Web Development, UI/UX, and Artificial Intelligence. With hands-on experience in international projects, startups, and freelancing, leveraging both modern frameworks and web builder tools to create impactful, user-friendly applications.

WORK EXPERIENCE

SlabPixel

Web Developer Intern (Feb 2025 – present)

- Built and optimized responsive websites for international clients using web builder.
- Extended no-code capabilities by implementing custom code and third-party libraries.
- Communicated directly with international clients to align goals and report progress.
- Structured and managed CMS data to ensure content accuracy and consistency.

Aern Store

Co-Founder (Mar 2023 – present)

- Co-founded a business focused on providing affordable fashion and household goods to villages, resulting in reseller growth to 300+ members.
- Developed an anonymous feedback website, streamlining client feedback collection.
- Designed brand identity assets, including logos and instagram filters.
- Managed daily operations of product packaging and shipment, ensuring efficiency.

EDUCATION

UNIVERSITAS TADULAKO (Aug 2022 - Present)

Bachelor's Degree in Informatics Engineering - GPA 3,75

SKILLS

- **Programming** : HTML, CSS, Javascript, TypeScript, ReactJS, NextJS, TailwindCSS, shadcn/ui, Astro, NodeJS, Bun, Motion, Laravel, Python, Github, Git
- **Data** : SQL, MySQL, PostgreSQL, Prisma, Machine Learning, Langchain, Supabase.
- **Design** : UI/UX Design, Social Media Design, Poster Design, Logo Design
- **Software and Tools** : Webflow, Framer, Wordpress, Postman, Figma, Canva, Capcut, Visual Studio Code, Microsoft Word, Microsoft Excel, Microsoft Powerpoint, Docker
- **Soft Skills** : Creative Thinking, Emotional Intelligence, Problem Solving, Empathy
- **Languages** : Bahasa Indonesia (Native), English

PROJECTS

Keluh Kesah – January 2025 – [Github] | [Website]

Tech Stack : NextJS, Prisma, Neon Serverless Postgres, Vercel Storage, shadcn/ui, Umami

- Developed an anonymous platform for users to express themselves, aiming to reduce stress by providing a space for sharing experiences.
- Achieved 1,000+ visitors on the first day; promptly resolved spam and offensive language vulnerabilities within 24 hours.

Roasting HP – September 2024 – [Github] | [Website]

Tech Stack : ReactJS, TailwindCSS, Langchain, Google Generative AI, Gemini API, Groq API

- Developed a web app that humorously "roasts" smartphone specifications, generating massive engagement on TikTok with more than 400,000 views.
- Efficiently handled API rate limits, supporting over 20,000 visitors in less than a month.

AernStore Feedback – October 2024 – [Github] | [Website]

Tech Stack : NextJS, Framer Motion, Google Sheets API, Google Apps Script, shadcn/ui

- Developed a web application that integrates user feedback into Google Sheets, providing a familiar and user-friendly interface for easy access and analysis.
- Designed a responsive, mobile-first interface with shadcn/ui for non-technical users.

CERTIFICATIONS

Alibaba Cloud Certified Developers - Building Web Applications with React (Dicoding) - Certificate in UI/UX Design (CertNexus) - Build Real World AI Applications with Gemini and Imagen Skill Badge (Google) - Learning SOLID Programming Principles (Dicoding)

ORGANIZATIONAL EXPERIENCE

Programming Tadulako

Member, Development Team (Sep 2022 – present)

- Joined Batch Rover 2022 and learned web programming fundamentals (HTML, CSS, JavaScript), Git/GitHub, Tailwind CSS, and React.js.
- Currently part of the Development Team, led the redesign of the official Programming Tadulako website, overseeing all design aspects and user experience improvements.
- Contributed to the development of the website using Next.js, TypeScript, and shadcn/ui, ensuring seamless design implementation.
- Managed version control and team collaboration using GitHub, while reviewing pull requests to ensure code quality and consistency.
